**BETTER
HEARING
AUSTRALIA**

(Victoria)

Dear Supporter,

When it comes to health and wellbeing, clear communication is key!

Hot off the press: we have developed an accessible protective face mask prototype.

These masks will complement our Unseen. Unheard resource.

Before these face masks hit the virtual shelves, we have a few refinements to make. For instance, we want to ensure that they don't fog or ride up your face when talking.

These masks are locally and ethically made, and we're extremely excited to bring them to you!

Please contact us if you'd like to purchase one (or some) of these masks when they become available:

jessica@betterhearing.org.au

If you have suggestions as to how we may be able to make these masks even better, we'd love to hear your thoughts. Please let us know.

Disclaimer: these handmade fabric face masks are not a substitution for medical-grade N95 masks and should be treated as such. They are meant as a precautionary measure to minimise the spread of droplets and do not guarantee the prevention from catching or transmitting an illness. We will not be liable for the transmission of disease.

Please head to our Facebook, LinkedIn or Twitter to find out more!
